Directory of Businesses and Services

Enfield, New Hampshire
Established 1761

The Enfield Village Association (EVA) is a nonprofit organization originally established in 2000 to promote and facilitate ideas and projects that would provide community pride in Enfield’s historical, cultural, commercial, recreational, and natural resources for residents and visitors to the Enfield Village. EVA’s activities are funded by contributions from individuals, businesses and the Town, as well as community events and grants.

In 2001, we joined forces with the Main Street Program when Enfield was selected to participate in the New Hampshire Village Main Street program. This alliance provided EVA with training, plus technical, state and nation-wide support in the areas of design, promotion, organization and economic restructuring of our downtown area. EVA’s vision for Enfield is that the Main Street area will serve, as it once did, as the core of the community: a place where people come together to enjoy the convenience and friendliness of hometown businesses, local services and unique recreational activities. It is our hope that the variety of neighborhood homes and businesses will reflect residents’ respect for historic preservation while addressing the practical needs of the present.

EVA’s focus in 2010 will be to continue to rejuvenate Main Street through events, beautification projects and economic development. As we move further into economic development, our hope is to collaborate and partner with the greater Enfield Business Community to help them grow and thrive in Enfield.

This Enfield Business and Services Directory is one element in our plan to drive economic development and improve the economic vibrancy of Main Street and the rest of our community. We believe this directory will be a valuable resource for our residents and visitors to ensure we do the most we can to encourage people to do business locally, thus improving our local economy.

In addition to the businesses and services available in Enfield, the Directory also contains information on town government, schools, churches, recreational and cultural opportunities and a map of Enfield.

The Directory contains a gridded Town map – to be found in the center of this booklet – which shows roads, landmarks, bodies of water, etc. Our thanks to Jim Taylor, Director of Community Development, for providing this map.

If you have any comments or questions regarding this booklet, please feel welcome to contact EVA by mail, P.O. Box 763, Enfield, NH 03748; by phone, 632-7197; or by E-mail, eva@interdial.net.

ENFIELD HISTORIC SITES

SHAKER BRIDGE

The bridge was completed by the Shakers in 1849 when the ice was 26 inches thick. Log cribs, 10 feet high, were filled with rocks and placed across the lake, at the selected narrowest spot, between piles driven a road width apart on both sides of the proposed line of the bridge. By cutting the ice underneath, the cribs sank to the bottom of the lake. Crib was piled upon crib until the bridge was completed. Destroyed by the hurricane of 1938, it was replaced by the current steel structure in 1940.

ENFIELD SHAKER MUSEUM

The Enfield Shakers settled on the west shore of Mascoma Lake in 1893. They practiced equality of the sexes and races, celibacy, pacifism, and communal ownership of property. They were known for their packaged seeds, herbal medicines, cooperage and industrial knitting. Their Great Stone Dwelling was designed by Ammi Burnham Young, a local architect who later created Federal courthouses and post offices across the country. At their peak, the Enfield Shakers gathered 300 members and farmed 3,000 acres. In 1927, they sold the property to the Missionaries of Our Lady of La Salette. The Mary Keane Chapel was added c. 1930 and is used today for weddings and concerts. In 1986 the Museum was formed. It is open year-round for tours, children's programs, craft demonstrations, seminars and retreats. Visitors may see exhibits, gardens and the Museum's eight historic structures, as well as hike the trails and visit the Museum Store. Overnight stays are possible to enhance the visitor's experience.

TOWN HOUSE, ENFIELD CENTER

In 1859 the Town House at "North End" was moved to this location, cut open, spread apart, and a 15 to 20 foot addition put in the middle. Voters decided in 1906 to hold future town meetings in Whitney Hall, Enfield Village, but it was 1916 before the change was made.

ENFIELD CENTER SCHOOLHOUSE

Built in 1851 and closed in 1947. Later used by the Earnest Workers Club as a clubhouse; it is now the Enfield Center Historical Museum.

LOCKEHAVEN SCHOOLHOUSE

An earlier schoolhouse was built in 1793; burned in 1802/3, rebuilt and burned again in 1819. Present building erected in 1864, abandoned in 1922. Restored in 1947, it contains many interesting pictures, documents, and other historical items. Nearby was the Lockehaven Church, built about 1838. It had a large dome-shaped steeple topped by a so-called "fish" weathervane which is still preserved in the schoolhouse. Remodeled in the 1890's, it was used as a community center under the name Union Hall. Taken down in 1915, it became part of the Freeman home on Oak Hill.

HEWITT HOUSE

At the corner of US Rt. 4 and Maple Street.

On the National Historic Register.
